

# LEAFDEFIER®

*Rain water will sieve through foam while debris falls off or blows away when dry.*

## ***Why use Gutter Foam?***

- ✓ Installs in minutes, making it more economical than hood, helmet, etc.
- ✓ Virtually NO tools, screws or nails required for installation
- ✓ Won't void roof warranties
- ✓ Fits snug in gutter and will not blow out
- ✓ Will not collapse like weak plastic or vinyl
- ✓ Can't be bent, dented or cracked from falling debris like other systems
- ✓ Handles large flow rates of rain
- ✓ Softens the sound of rain contacting metal gutters
- ✓ Prevents mosquito populations from breeding in standing water
- ✓ Built-in *Biocide* and Fungicide application
- ✓ Topped with UV stabilizer
- ✓ Made from the same exterior grade urethane used in wave runner seats and fuel tanker hulls
