INNOVATIONS ONLY FROM CLASSIC GUTTER SYSTEMS

NEW "I-BEAM STRONG"
DESIGN UNIQUE TO
CLASSIC GUTTER SYSTEMS

REDESIGNED BACK MAKES CAST
FASCIA BRACKET INSTALLATION
EASIER THAN EVER

In 2014, Classic Gutter Systems redesigned our line of Cast Fascia Mount Gutter Brackets with our new "I-Beam Strong" ridge design. The same time tested engineering principles that give industrial I-Beams their strength, are now incorporated into Classic Gutter System's Cast Fascia Brackets.

By adding an elegant "Shadow Line" bracing rib along the bottom of the Cast Fascia Bracket, we have more than doubled the strength of our already robust brackets, while keeping the beauty and style that are the hallmarks of Classic Gutter Systems product line.

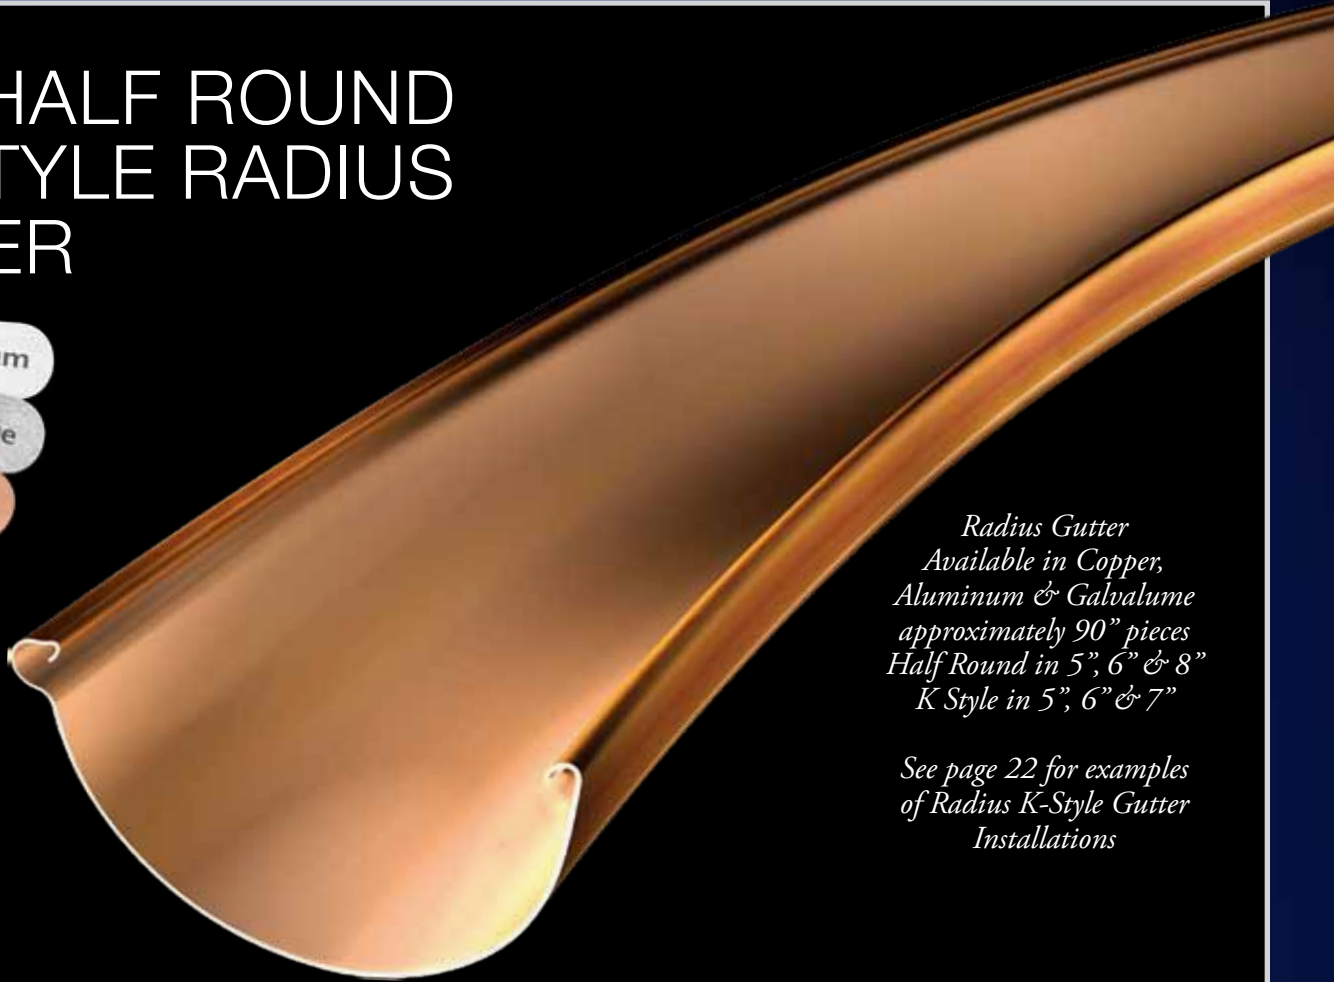

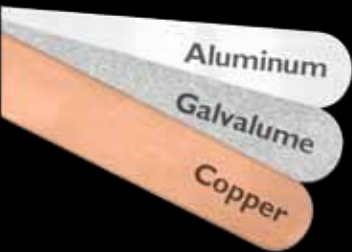

Strength & Beauty! Now more than ever, Classic Gutter Systems is the right choice for half round gutters and half round gutter accessories for your home or business.

Also new this year is the redesigned back on Classic Gutter System's entire line of Cast Fascia Brackets.

Now, with the new back design on our Cast Fascia Brackets, you can attach the Fascia Brackets to a length of gutter while on the ground because the back screw slots are left exposed. This simple, yet ingenious innovation allows the Fascia Brackets and gutter to be assembled much faster, then lifted into place, and installed together as a single unit! Ensuring proper grading and correct installation will be easier and take less time than ever before!

The newly redesigned backs on all of our Cast Fascia Brackets, along with the new "I-Beam Strong" ridge design, are just the latest innovations from Classic Gutter Systems, the leader in premium half round gutter supplies.

TESTIMONIALS

I have been in the construction business for most of my life, learning from my dad. One of the most important things I learned from him was taking pride in my work, paying attention to detail and giving your customers a quality job both in labor and material. When my dad retired and I took over, his work ethic became mine. One product that we have used is Classic Gutters, because of the different choices in the size and material for the gutters and the options in brackets for hanging them right down to the downspouts. It is a quality product that you can depend on.

- *Tom Silva, Silva Brothers Construction Inc*
Reading, Massachusetts

Classic Gutters Systems are the suppliers of Top Quality Half Round Gutter and accessories. I have been installing their products for just over 10 years and have been very pleased with their quality. They are always looking for ways to improve their product and to help the installers. If you are thinking of half round gutters. Classic Gutter Systems is the only way to go.

- *Tim Coopmans (owner), Raymar Seamless*
Evestrough, Allegan, Michigan

Being from the heart of Cajun country, we get requests for a lot of French style components. We just love what Classic Gutter Systems brings to the table with all the casting, spherical endcaps, and of course the Fleur de Lis emblems. We feel

comfortable bidding any project because of the amazing choices they offer and quality and service that is second to none. It's like having a partner that cares about the results.

- *Brian Napier, Napier Sheet Metal*
Jeanerette, Louisiana

We've had lots of great relationships with companies as well as being a very blessed business ourselves. One particular company we've grown to really respect and appreciate is Classic Gutter Systems of Kalamazoo, MI. We've dealt with them approximately 15 years now. I admire the people for their personalities, curiosity, respectfulness and response to get back with us when needed. They are always looking for better ways and ideas to improve their products.

- *Jeff Sheets, Sheets Brothers Inc.*
Jefferson, North Carolina

D.Q.G. has been in business since 1985, specializing in the installation of half round gutters on some of the finest homes built on the East End of New York. We offer a wide variety of options in copper gutter brackets and colored aluminum items produced by Classic Gutter Systems. Their specialty brackets allow us to give the extra detail we are looking for to finish off the picture perfect look every homeowner strives for.

- *Richard Duda, D.Q.G. Inc.*
Holtsville, New York

Our company has installed custom half round gutters using Classic Gutter Systems for the past 7 years. It was so great to discover their products. The selection is diverse, to say the least. Their service is unmatched. A company that enjoys what they do and they do it well.

I truly could not be more pleased.

- *John Morton, Scott-Lee Guttering Company*
St. Louis, Missouri

From day one, we have found Classic Gutter Systems to be so helpful for all our projects. We have used them for 15 years. Their sales staff is very helpful and the shipping department does a nice job packaging all of their products. My own house has Classic Gutters on it!

- *Bill Worth, Worth Seamless Rain Gutters Inc.*
Derby, Vermont

We couldn't be more pleased with Classic Gutters. We have always admired and respected you as the quality people you are and the standards of excellence you maintain from ordering to receiving your products. We also want you to know how much we appreciate the great selection and quality of your products, as it brings distinction and value to our customer's homes.
